

# DURAPREP™ WB

*DuraPrep WB* is a new and exciting line of impressive waterborne, low VOC, easy to use surface preparation products that are ideal for use on a multitude of coatings. These products are environmentally friendly because they are virtually odorless, non-ozone depleting, and contain no HAP's or TAP's. Comprised of a Heavy Industrial, Industrial and Waterborne paint strippers, a Graffiti and Over spray remover and Concrete Etch Compound (gel), low odor products can reduce the down time of a project and are ideal products for removing old paint systems. The *DuraPrep WB* line provides a complete system for the PPG High performance coatings line from beginning to end.

## DuraPrep WB

### 7-551 Heavy Industrial Stripper

**DuraPrep 7-551** is a water-based heavy industrial paint stripper that is effective in removing high performance coatings such as highly cross-linked urethanes and epoxy topcoats and primers in heavy industrial applications.

- Capable of lifting fuel resistant primers
- Recommended for use in Petrochemical Plants and Nuclear Facilities
- Can be used in areas where abrasive blasting is not an option.

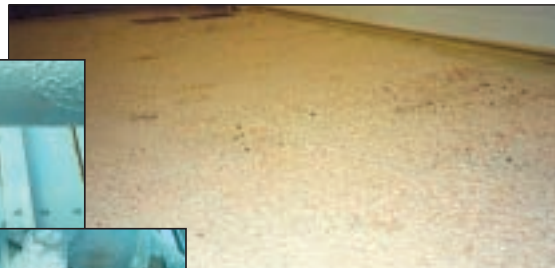

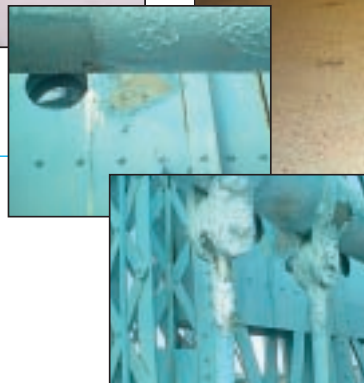

## DuraPrep WB

### 7-521- Industrial Stripper

**DuraPrep 7-521** is water-based industrial paint remover that is effective in removing alkyds, urethanes, most two-component epoxy coatings, fusion-bonded epoxies and other tough industrial coatings from metal and concrete.

- Recommended for use on Water Storage Tanks, Waste Water Treatment facilities.
- Ideal for use on painted concrete floors, exteriors and interiors of buildings.
- Easy to Apply

## DuraPrep WB

### 7-540 Graffiti and Overspray remover

**DuraPrep 7-540** is an excellent graffiti and over spray remover designed to clean up problem graffiti and over spray without damaging the original underlying paint. **DuraPrep 7-540** is often used to remove graffiti paint from aerosols cans on painted exterior surfaces.

- Will not fog or streak plexi-glass
- Non-hazardous and Non Flammable
- Effectively lifts paint over spray, grease, and wax from a variety of surfaces including decorative paint and glass.

## DuraPrep WB

### 7-512 - Concrete Etch Compound (Gel)

**DuraPrep 7-512** is a gel concrete etch compound specially designed to provide a surface profile on green and mature concrete. The depth of the etching achieved with this product is the same as hydrochloric or muriatic acid with 80% less odor and more uniform etch than liquid etch materials.

- Safe for use
- Rinsing with water easily cleans residue.
- Recommended for use on warehouse floors, concrete stairways and tilt up concrete.

# DURAPREP™ WB

Product Code	Description	Recommended Use	1- Pint	1- Gallon	5- Gallon
7-512	Concrete Etch Compound	Green and Mature Concrete, Factory and Warehouse floors Concrete Stairways, Tilt up Concrete, Exposed vertical or overhead concrete		X	X
7-521	Industrial Paint Stripper	Water Storage Tanks, Bridges, Painted Concrete floors, Exteriors and Interiors of buildings		X	X
7-540	Graffiti Remover	Over-spray on vehicles from an overhead painting project, Graffiti paint from aerosol cans on painted exterior surfaces, Printing Ink on rollers and walls	X	X	X
7-551	Heavy Industrial Stripper	Nuclear Plants, Pulp and Paper Mills, High Build, High End Products.		X	X
