

FEIN FSC 1.6 Window Cutter

The new FSC 1.6 has been enhanced to meet the stringent requirements that you-the installer- demand. We are keeping comfort and ergonomics our highest concern with a lighter weight, reduced vibration, and smaller diameter handle.

Because we know time of removal is critical to your business we have perfected the oscillation RPM to maximize torque and the speed of cutting.

Other benefits include an easier way to fasten and remove your blades. A smaller and cooler running gear head. Improved accessibility of speed control and switch.

Each of the features combine for a better quality and more durable operating Fein Glass Removal Tool.

For more information and a dealer near you call **1-800-441-9878** or visit us at www.feinus.com.
