

MegaSeal™ SL- Tint Bases *99-6650 Series*

Gray floors are no longer your only option in floor coatings. Introducing MegaSeal SL Tint Bases, a two component, self-leveling epoxy floor coating with virtually infinite color capability through our PerformaColor® tinting system. Providing the performance of a factory tinted self-leveling system, this high solids, high gloss technology is new to the industry. Extremely hard wearing and durable, MegaSeal SL Tint Bases possess a seamless hygienic surface and are recommended for use over properly prepared concrete, masonry and previously paint surfaces. Now, you are only limited by your imagination!
