

**RAIN-LIGHTSENSOR REMOVAL TOOLS** These tools are for loosening soft-glued rain/light sensors. Once the windshield is removed, the attached sensor is heated up on the outside of the windshield using a hot air dryer. The tool must be fitted exactly over the sensor and the old adhesive is loosened using sideways pressure.

## **GTOOL301**

Fits many Chrysler, Jeep, Mazda, Mercedes sensors.

## **GTOOL302**

Fits many BMW and Mercedes sensors.

## **GTOOL303**

Fits many Mercedes sensors.
