

**INDUSTRIAL COATINGS**

## **PRODUCT: CHEMBAR**

### DESCRIPTION

**CHEMBAR** is a water soluble wax material formulated for application on body in white metals prior to solder or welding operations. **CHEMBAR** eliminates spatter adherence associated with these operations and can be readily removed from the surface in the subsequent solder grind washer or the cleaning and rinse stages of the phosphate system. **CHEMBAR** is not detrimental to phosphate operations. **CHEMBAR** is used as received and can be applied with spray equipment or a hand brush. **CHEMBAR** has no flash point, is not toxic and is completely rinseable with water.

### APPLICATIONS

1. Spray or wipe on metal surface to be welded to prevent spatter adherence.
2. Apply to the surface of fine wire and stud gun nozzles to prevent spatter adherence. (Nozzles will be easier to clean which will increase the life of the nozzle and reduce replacement costs).
3. Spray or brush on welding equipment to prevent spatter adherence. Build-up of spatter can be readily removed which will reduce maintenance time and costs.

### PHYSICAL DATA

SPECIFIC GRAVITY	1.04
WEIGHT / US GALLON	8.67#/GAL.
FLASH POINT	NONE
VISCOSITY	7-10 CPS
APPEARANCE	SLIGHTLY MILKY LIQUID, MILD ODOR
STABILITY	MODERATELY STABLE
VOC	NONE

### HANDLING AND STORAGE

**CONSULT THE MOST RECENT MSDS FOR HEALTH AND SAFETY INFORMATION  
RELATIVE TO THE SAFE HANDLING AND STORAGE OF THIS MATERIAL.  
EMERGENCY 24 HOUR CHEMTREC NUMBER 800 424 9300**
