

Design meets durability.

MEGASEAL® FLOORING SYSTEMS

MegaSeal® Flooring Systems

PPG **MegaSeal** is a versatile flooring program complete with technical expertise and sales support from PPG, an innovative leader in the protective and high performance coatings industry for over 100 years.

To determine the **MegaSeal** Flooring System that's right for you, call 1-888-PPG-IDEA, or visit our Web site at www.ppgmegaseal.com.

MegaSeal Self-Leveling Epoxy Flooring

Available in every color in the rainbow, thanks to our patented technology that allows for tinting of our self-leveling seamless hygienic floors. This opens up an array of design opportunities for retail and commercial as well as industrial applications.

MegaSeal Anti-Slip Systems

Ideal for environments where prevention of slips and falls are required. Many grades are available—from one-component, pedestrian grades, which offer moderate chemical resistance to—low-VOC, fast-set systems that cure at lower temperatures and are fire-retardant.

MegaSeal Resurfacing Systems

These trowel-applied, epoxy-mortar systems are exceptional for concrete resurfacing. Specific products are engineered to provide durable, high-build finishes in low-temperature, corrosive or other extreme environments.

MegaSeal Primers, patching products and thin-film systems are also available.

Color Visualization

See Megaseal Color Options on Your Floor Before You Paint

PPG **Visions at Glance™** software can help you experiment with colors before painting a floor. This easy to use software allows you to save a photo of your floor on your computer and choose from thousands of potential colors from the PPG **PerformaColor®** System or **Pittsburgh®** Paints **Voice of Color®** Design Collection.

MegaSeal's patented tint technology coupled along with PPG **Visions at a Glance** software give you unparalleled design options for seamless hygienic self-leveling epoxy floors. Visit www.ppgmegaseal.com to try or buy PPG **Visions at a Glance** software.

BuyLine 5408

Type of Product	Description	Product Code	Recommended Uses	Colors
Self-Leveling Systems	MegaSeal SL- Self-Leveling Epoxies	99-6680 series 99-6695 series 99-6652 series	Excellent for use in retail applications, clean rooms, hangers, laboratories, production facilities, traffic aisles, food processing plants	Haze Gray, Deck Gray, Tile Red, Sandstone, White, Clear, Crystal Clear & Unlimited Selection in SL Tint Bases
	MegaSeal SL/HB- High Build Version	99-6600	Clean rooms, production facilities, laboratories, any facility where a thicker high build is required	Haze Gray, Deck Gray, Tile Red, Sandstone, White
	MegaSeal SL/FS- Fast Set Version	99-6699	Hangers, laboratories, traffic aisles, food processing plants, any facility where a quick turnaround is required	Haze Gray, Deck Gray, Tile Red, Sandstone
	MegaSeal WB- Water-Based Epoxies	98-7630 series 98-7698 series	Warehouses, clean rooms, mechanical rooms, assembly plants	Haze Gray, Deck Gray, Tile Red, Sandstone, White, Clear
	MegaSeal WB/T- Texture Coat Version	98-7643	Commercial, manufacturing, energy facilities, prisons, hospitals, boiler rooms	Haze Gray, Deck Gray, Tile Red, Sandstone, White
Thin Film Systems	MegaSeal HPU- High Performance Urethane	99-6730 series	Excellent for use in industrial and commercial areas	Clear, Haze Gray, Deck Gray, Sandstone, Tile Red, White
	MegaSeal CRE- Novolac Epoxy	99-6621 series	Excellent for use in areas that require resistance to harsh chemical environments	Haze Gray, Tile Red, Deck Gray, Sandstone, Safety Yellow
Anti-Slip Systems	MegaSeal NSP- Pedestrian Anti-Slip	99-6511 series	Int/ext use in commercial, industrial and residential applications	Gray, Red, Black, Yellow
	MegaSeal NSE- Heavy Duty Epoxy	99-6521 series	Int., petrochemical plants, pulp and paper	Gray, Red, Black, Yellow
	MegaSeal NSU- Heavy Duty Urethane	99-6501 series	Exterior loading docks, marine, walkways	Gray, Red, Black, Yellow
	MegaSeal NSFS- Low Voc, Fast Set	99-6541 series	Industrial and commercial markets	Gray, Red, Black Yellow
Resurfacing Systems	MegaSeal RS- Epoxy Floor Resurfacer	99-6820 series	High impact areas, industrial plants, automotive, more	Deck Gray, Haze Gray, Tile Red, Cement
	MegaSeal RS/LTC- Low Temperature Cure	99-6870 series	Cold storage, freezers, food processing plants	Deck Gray, Haze Gray, Tile Red, Cement
	MegaSeal RS/AR- Acid Resistant	99-6840 series	Chemical processing, food & beverage, secondary containment	Deck Gray, Haze Gray, Tile Red, Cement
	MegaSeal RS/MT- Moisture Resistant	99-6880 series	Below grade facilities, any environment with hydrostatic vapor transmission problems	Color Determined by Topcoat
	MegaSeal RS/PT- Power Trowel	99-6890 series	Warehouses, automotive plants, heavy industrial application	Color Determined by Topcoat
Primers	MegaSeal HSPC- High Solids, Clear Epoxy Primer	99-6639 series	Ideal for mechanically prepared floors and compatible with most MegaSeal finish coats	Clear
	MegaSeal WBPC- Clear Water-Based Primer	98-6635 series	Excellent for use over acid-etched concrete	Clear
	MegaSeal WBPG- Gray Water-Based Primer	98-6637 series	Minimize bubbling and pinholing associated without gassing	Gray
Patching and Sealing Products	MegaSeal CF- Epoxy Crack Filler	99-6672 series	Cracks, bug holes, minor spalling, vertical application	Gray
	MegaSeal CF/EZ- EasyPatch Crack Filler	99-6675 series	Cracks, bug holes, fairing	Cream
	MegaSeal FJS- Flexible Joint Sealant	99-6678 series	Excellent for construction or expansion joints	Gray

PPG *IdeaScapes*™

Where can you find the architectural glass, coatings, and paint product choices you want, together with tools, support and expertise of one of the world's most experienced and innovative building products manufacturers?

The answer is **PPG *IdeaScapes***. A new initiative from PPG. A new approach to serving the architectural community. A new PPG brand. A new toolbox for architects.

PPG *IdeaScapes* — Glass, coatings, and paint products with the long-term, proven performance your project demands. **PPG *IdeaScapes*** — Experienced architectural personnel, knowledgeable and trained to address your design and technical needs. **PPG *IdeaScapes*** — Design tools, product selectors, internet resources and educational services to facilitate product evaluation and specification.

PPG *IdeaScapes*. Integrated products, people and services to inspire your design and color vision.

EcoLogical Building Solutions

PPG Glass, Coatings and Paint for Sustainable Design

Environmental sustainability represents the most powerful trend to influence the design and specification of buildings in a generation.

PPG has developed **EcoLogical Building Solutions**, an exclusive collection of select products designed to help architects and specifiers construct “greener” buildings.

Yet, PPG is committed to more than making environmentally progressive products. We actively pursue company-wide initiatives that support regional sourcing, reduce the environmental impact of our packaging, make our products

easier to recycle or dispose, encourage the use of alternative energy and cut overall greenhouse gas and VOC emissions.

If your goal is to earn LEED certification for your project, or simply to reduce your building's overall operating costs and environmental impact, **EcoLogical Building Solutions** has the glass, coatings and paint products you need, all from a proven, innovative company you can trust.

To learn more, or to order our **EcoLogical Building Solutions** brochure or LEED White Paper, call 1.888.PPG.IDEA or visit www.ppgideascales.com.
